Chairman’s Report

The Evolution of our Strategic Thinking

The Adelaide Hospital Society, through its President’s Committee, Board and Executive, has spent the past 18 months considering its strategy for the coming years. Consultations were held with the President of Tallaght Hospital and with the Chairman and CEO of the Board. Legal advice was obtained as to our obligations under our Memorandum of Association and as to the security of our funds.

Before outlining our thoughts, a few historical details are pertinent to make it clear that the Society has been consistently positive and dynamic in its approach, and that the Society’s intention is to grow and evolve in a way that is relevant to changes in Irish society.

The Charter of the Hospital was developed after 39 long meetings of the Kingston and Kennedy-Kingston committees. It is a remarkable document in that it affirms the right of citizens to access to full medical information and to such procedures as may be lawful within the state. It also stipulates a Board of 23 persons to ensure full representation of relevant interests.

In 2009, the Board commissioned PricewaterhouseCooper to review the governance and management structures of the Hospital. While some regarded the report as superficial, it did reflect the views of those interviewed. In particular it suggested that the Board was too large to be efficient. After some time, the reform process started. Legal reform of the Charter was proposed. The AHS felt that this would be a slow and inefficient process and instead proposed that the same could be achieved by using byelaws and indeed this is the mechanism that was used to arrive at the present nine person Board. Thus the changes that have occurred were promoted by the Society.

In 2009, the Board commissioned PricewaterhouseCooper to review the governance and management structures of the Hospital. While some regarded the report as superficial, it did reflect the views of those interviewed. In particular it suggested that the Board was too large to be efficient. After some time, the reform process started. Legal reform of the Charter was proposed. The AHS felt that this would be a slow and inefficient process and instead proposed that the same could be achieved by using byelaws and indeed this is the mechanism that was used to arrive at the present nine person Board. Thus the changes that have occurred were promoted by the Society.

Before and throughout this period, the AHS has developed new skills and expertise of national and potentially international relevance through the development of its Health Policy Initiative. This has been spearheaded by Dr. Fergus O’Ferrall to whom the Society is indebted and it is a particular pleasure to acknowledge this.

As part of our strategic thinking, we have revisited our vision, values mission and purpose in arriving at our strategic plan.

Our Vision

Our vision is to be an independent not-for-profit health foundation that seeks to advance healthcare in a way that is-

- centered upon the dignity of every human being  
- treats mind, body and spirit holistically, and  
- provides equal access to healthcare based upon the basis of need.

Mission and Purpose

This is defined in our principal object in our Memorandum of Association as: “The advancement of medicine, medical care and medical science and the practice thereof including the advancement of medical and nursing education and towards this object to maintain a means for charitable participation in the health services of Ireland by members of the Christian Churches which adhere to Protestant traditions for the benefit of all people and especially the poor of every denomination”.

Statements of Values.

We will be loyal to our vision and to our objectives.

In so doing, we will specifically welcome participation in our activities by persons of any denomination or none who share our fundamental principles.

Our fundamental principles shall be:

- Equal access to equal quality health care for all persons with particular attention to the deprived and dispossessed.  
- Support for minorities and the dispossessed.  
- Respect for the dignity of the individual by treating and caring for them as they wish.  
- Support of the right of all to all information relevant to health without pre-conditions.
• Independence in opinion and action, including but not confined to the fields of ethics and genetics.
• Public and patient involvement in healthcare, thus supporting the voluntary principle of active citizenship in promoting the common good.
• Evidence-based healthcare provision.
• The promotion of excellence in education and research.
• Engagement with our local community.

We shall undertake to be advocates for these principles.

We will promote a health system that is centred upon the dignity of every human being, and which treats body, mind and spirit in a holistic way.

We will retain our Voluntary nature and in so doing will protect our independence. While retaining our right to apply for research grants, and to be commissioned to develop expert reports and policies, we will retain our academic, operational and financial independence.

In adhering to our principal object, we will attempt to contribute to Irish health care in a broader context than hitherto by developing our work in health policy in active collaboration with like-minded bodies. This, inter alia, will include consideration of the principles of Governance of hospital or hospital groupings, retention of our right to nominate to the Board of Tallaght Hospital, the promotion of medical research and education, the promotion of preventive as well as curative medicine, increased engagement with our community and the promotion of person- and patient-centered care.

We will commit to public and patient involvement in the design, governance and provision of healthcare services in the interests of quality and accountability.

We will respect our subsidiary objects, particularly with regard to the support of all aspects of Nursing as outlined in our Strategic Plan, and will consider other proposals on a case-by-case basis.

Outline Strategic Plan.

This plan outlines principles that have been agreed. Timelines and specific actions will require further elaboration.

Introduction:

Our vision, statements of values and principal object define the terms of our strategic plan.

Irish society is changing. We will adhere to our principal object while stressing in our statement of values that we welcome and value participation in our activities by persons of any denomination or none who share like-minded values.

Background:

While we remain committed to support the Hospital, we feel that it would be helpful if the current Board were to consider its relationship with a voluntary body such as the AHS if the added value that can arise from voluntary input is to be fully realized. We are also a little uncertain as to the degree with which the Church of Ireland wishes to take a leadership role in healthcare. We note the likelihood of Hospital groupings and the development of Trinity Health Ireland, which will have implications for the governance of Tallaght. The evolution of the Adelaide Health Policy Initiative has already been adverted to. We are also aware that we should engage more fully with our community.

Therefore, we will:

Be guided by our vision, mission and purpose, and statements of values as recorded.

Seek to meet with the Primate and our other Patrons to establish whether the Protestant Churches wish to continue to be engaged in healthcare and the protection of minorities.

Engage with those relevant to Trinity Health Ireland and the new Hospital Grouping to establish whether we can define principles of Governance that are compatible with our values, Charter and strategic plan.
Positively develop the AHPI: This will require:-

- **Detailed planning in consultation with Drs O’Ferrall and Darker.**
- **Populating our Board with persons with relevant expertise.**
- **Development of links with, inter alia, the King’s Fund, Carnegie Foundation, TASC, Jesuit Centre for Faith and Justice, TCD Institute for Health Policy and Management, The TCD Institute for Preventive Medicine.**
- **Consideration of supporting tenured positions if we are to retain talented staff.**

Strengthen links with the TCD School of Nursing and proceed as previously discussed:-

Stop the interview process after 2013.

From 2014, introduce an enhanced Adelaide School of Nursing Application Form from which a list of nominees to the Adelaide School of Nursing will be compiled.

Retain the Society’s unique CAO codes to administer the Bursary scheme.

**Continue Scholarship programmes.**

**Consider Group-wide bursaries.**

Collaborate with the emerging Tallaght Hospital Foundation with regards to coordinated fund raising, while recognizing that we do not have special expertise in fund raising.

Continue with our subsidiary objectives as defined in our Articles of Association, but with consideration of applications on a case-by-case basis, with a shift in emphasis towards our Primary Objective, which is not necessarily site-specific.

Continue to nominate a member or members to the Board of Tallaght Hospital, and to promote constructive communications between the Board of Tallaght and the AHS.

Retain flexibility to engage more fully with the Board of Tallaght Hospital with regard to the added value that modern management theory suggests can arise from voluntary involvement.

Engage, progressively and pro-actively, with our community to develop principles of integrated care with a focus on person- and patient centred care, in collaboration with the AHPI.

Value and cherish our traditional supporters and seek to welcome them into our new strategic directions.

Endeavour to preserve our capital and invest it judiciously to allow us to fulfill our objectives.

Ian M Graham,
FRCPI, FESC, FTCD, Chair AHS
The principal Object of the Adelaide Hospital Society is the advancement of healthcare and in 2012 we continued to fulfil our obligations under this Object in a variety of ways, as you will see from reading through the 2012 Annual Report.

Board of Governors
We welcome Ms Karen Farrar and Mr Alan Gillis as new Annual Governors and members of the Board of the Society and we look forward to their contribution to the work of the Society in the years ahead.

The Adelaide School of Nursing
There was an increase in the number of applicants placing the Adelaide School of Nursing codes on their CAO form in 2012 and 919 applicants received application forms. 437 submitted completed application forms and 155 were called for interview. From these a list of nominees was drawn up and 33 students, including 4 mature students, were admitted to the Adelaide School of Nursing in September 2012 to undertake the BSc Nursing (General) in Trinity College, Dublin.

The Board of the Adelaide School of Nursing has been considering the application process for some time and in December 2012 a proposal was brought to, and approved by, the Board of Governors that the interview process would cease after 2013. The Adelaide School of Nursing will retain its own CAO codes (TR093 and TR094) and it is intended to develop, in collaboration with Trinity College School of Nursing & Midwifery, an appropriate application form from which a panel of nominees will be compiled.

We extend our very sincere thanks to all those who over the years have contributed their time and professional expertise to our interview process; in particular thanks to Mrs Grace Irvine and to nurse managers from Tallaght Hospital and the staff of the School of Nursing & Midwifery, TCD.

Scholarships and Bursaries
The Hannah McDowall Scholarship 2012 was awarded to student nurse Leah McNulty for her distinguished performance in her first year TCD examinations. Leah is currently in Year 2 of the BSc Nursing Degree (Children’s and General Integrated) and we wish her continued success in her studies. The Scholarship is valued at €1900 and is in honour of Staff Nurse Hannah McDowall (1975-2002). It is presented each year at the Society’s AGM.

In 2012 the following nursing Scholarships were awarded: (the scholarship programme is open to nurses on the staff of the Hospital and Nurse Lecturers in TCD)

The Dorothy & David Mitchell Scholarship
Ms Annamma John
“To investigate the attitudes of nephrology nurses towards palliative care in ESKD in the Irish hospital setting”

The Caroline Sharkey Scholarship
Ms Caroline Finn
To undertake MSc by Research in Cardiac Rehabilitation
The Eileen Mansfield Scholarship was not awarded in 2012.
**Bursaries**

Bursaries to the value of approximately €50,000 were paid to 10 new and 15 continuing students in 2012. These bursaries are vital to our students and can often ensure that a student can take up a place in the Adelaide School of Nursing.

As noted in the 2011 Annual Report the Nursing Development Fund was wound up as the funds had been depleted. However, the Society is committed to nursing development and education and we will continue to administer the Scholarship and Bursary programmes from our voluntary funds. Donations to these schemes are always welcome.

**New Initiatives Scheme**

The following New Initiatives grants were awarded to Hospital Departments in 2012 to a total of €15,500:

- **Uniterruptable Power Supply Requirements Analysis** - ICT Department
- **Development of a Visible Alert System in relation to at risk patients** - Endoscopy Unit
- **Provision of a travel allowance to patients who are unable to access LSVT Big Therapy programme in Tallaght Hospital due to travel costs** - Physiotherapist Department
- **Purchase of Video Frenzel Lenses to improve diagnosis and treatment of Vestibular Dysfunction** - Physiotherapist Department
- **Purchase and implementation of the E Link Biometric Upper Limb Exerciser** - Occupational Therapy Department

**Community Health Initiative Scheme**

In 2010 the Voluntary Services Development Committee recommended to the Board of the Society that the Community Health Initiative Scheme be set up. This scheme aims to offer a grant or grants (up to a total of €5000) to local community healthcare organisations in the Dublin 24 postal area that provide a service or supports within the healthcare field.

In 2012 we had a number of applications under this Scheme from local organisations and the following awards were made to a total of €5,000:

- **Kingswood/Kilnamanagh Active Age 12 week Physical Activity Programme for Older Men**
- **Threshold Training Network Meet-up Programme – adult mental health**
- **Fettercairn Community Healthcare Project (1) Roma Primary Healthcare Initiative (2) Community Health Forum**

In these difficult economic times schemes like our Community Healthcare Initiative are crucial for local organisations struggling under increasing demand for their services and cuts to their funding. The Society is committed to forging stronger links with the local community and we will continue to administer the CHIS in 2013.

**The Palliative Care Appeal**

This Appeal concluded in December 2012 having raised approximately €85,000 to support and develop the Complementary Therapy Service of the Palliative Care Unit, which works alongside medical staff caring for patients with advanced progressive illness. Dr Stephen Higgins, Consultant in Palliative Care, and his team are extremely grateful to all who contributed to the Appeal.

**Patrons of the Adelaide Hospital Society**

With the retirement of the The Most Rev Alan E.T. Harper we welcome The Most Rev Dr Richard Clarke, Archbishop of Armagh and Primate of All Ireland as Patron of the Society. We wish the new Primate God’s richest blessing.

On 27th September 2012 we were honoured to welcome The Rt Rev Dr Roy Patton, Moderator of the Presbyterian Church in Ireland and Patron of the Society along with Mrs Daphne Patton and Rev Michael Anderson, Dublin & Munster Presbytery. The Moderator, Mrs Patton and Rev Anderson were welcomed to the Hospital by Mrs Rosemary French, President of the Society, who escorted them throughout the visit. They met with the CEO of the Hospital and visited the Pastoral Care Department, the National Children’s Hospital and Cardiology Department. They were impressed by all they saw, including the new outdoor play area in NCH and in particular by the commitment of the staff they met to deliver the best possible care to patients and their families The visit was much appreciated and we are very grateful to the Moderator for taking time out of his busy schedule to spend time in the Hospital and we are grateful also to staff of Pastoral Care, the NCH and Cardiology for facilitating the visit.

The ongoing support of our members and subscribers is crucial to the Adelaide Hospital Society and we are always pleased to hear from you. Do contact us if you have any questions, comments or suggestions; our contact details are at the back of this Report.

Very best wishes,

Roisin Whiting
A tribute to Ms. Kathleen Graham Chaplain and Friend of the Adelaide Hospital Society

The words ‘God only takes the good’ come to mind as I remember Kathleen Graham. They are words that I don’t like or understand. However they make some sense while grieving a close and valued colleague. For the past twelve years Kathleen has been the backbone of the Pastoral care department at Tallaght Hospital. Kathleen was the face of pastoral care. Much loved and respected by generations of patients, staff and families. To all who visited the pastoral care centre Kathleen extended a warm welcome. She certainly made hospitality her special care.

Kathleen’s warm personality and presence made her office a place where all could bring their cares and concerns. Over the past twelve years Kathleen studied as Counsellor, Psychotherapist, specialising in Suicide Bereavement support and in recent times Homicide counselling. And to top all those studies Kathleen began studying Theology and undertaking three units of Clinical Pastoral Education to train as healthcare chaplain.

Kathleen’s wide experience in the Hospital made the transition to Chaplain seamless. Shortly before Kathleen was diagnosed the Hospital also appointed her as End of Life Care Coordinator. Kathleen’s skill and competence was highly regarded. It is difficult to accept and very sad that after a personal voyage that brought Kathleen to the role of chaplain that she had to be finally be ‘tested like gold in a furnace’ through sickness.

Kathleen took on the the diagnosis like all of the other transitions in her life with dignity and like a lady. Throughout her sickness Kathleen remained calm and focussed. Kathleen was a friend of the Adelaide Society and attended the Annual General Meeting every year. Kathleen is greatly missed by all in the Hospital.

The morning after Kathleen’s death we were visited by the Right Reverend Roy Patton, Moderator of the Presbyterian Church in Ireland and by the friends of the Adelaide Hospital Society. The visit was timely and with deep sensitivity the Rev. Roy prayed with us all.

John Kelly, Pastoral Care
Mr William J Stringer

Mr William Stringer, Life Governor of the Adelaide Hospital Society, passed away on 12th January 2013. He had a very long connection with the Adelaide and in particular is remembered in relation to the Shilling Fund.

Mr Stringer's association with the Adelaide began in 1950 when he had a kidney removed. In those days if you went to Theatre from the private floor of the hospital you went with an umbrella over your trolley!

He was in the hospital for a few months and became friends with Mr Nigel Kinnear and Dr David Mitchell. At this time the Adelaide Hospital was in financial difficulties and the Shilling Fund was started circa 1953. The first collection was used to join the main building with Victoria House.

Mr Stringer ran the Fund from his home and his daughter, Anne Deane, recalls that for years they had no dining room as it was taken over by hundreds of white cardboard boxes with the Adelaide badge and Shilling Fund printed on them in blue! These were sent to all parishes, businesses and indeed to anyone Mr Stringer knew. By 1959 over half a million shillings had been collected!

In 1959-60 Mr Stringer launched a special collection; this time to build the ICU which opened in October 1965.

He was made a Life Governor on 23rd December 1959 and continued with the Shilling Fund until 1970.

His support and commitment to the Adelaide and to healthcare was outstanding and we extend our condolences to his wife, Ena, his daughter, Anne and extended family.

Mr Arthur Ogilvie

Many readers will no doubt remember Mr Arthur Ogilvie who worked in the Adelaide Hospital for more than 50 years. Mr Ogilvie died peacefully on 7th November 2012. We extend to his wife, Phyllis, our very sincere condolences.

GIFTS IN MEMORIUM

Donations in memory of the following were received:

- Ms Marian Healy
- Mr Brian Fennell
- Mr Reginald Deegan
- Mr Tom Jackson
- Mr & Mrs Wally & Fanny Winn

Mr Arthur Ogilvie
The Adelaide Hospital Society

The Society, as a voluntary charitable organisation, supports Tallaght Hospital, Dublin 24 evoking public support throughout Ireland for this public voluntary teaching hospital, which provides the highest quality of healthcare especially for the poor of every denomination and which fosters an inclusive approach to medical practice, treating each patient as they would wish. The Society provides a means for participation for members of the Protestant Churches in the Irish health services and welcomes support from all who value the voluntary tradition of the Society’s commitment to healthcare since 1839.

The Adelaide Hospital Society is incorporated as a limited liability company (No. 224404) and is a recognised charity (Charity No: 11153), with its registered office at Tallaght Hospital, Tallaght, Dublin 24. The Society is composed of Life and Annual Governors and of Members and is managed by a Board appointed from amongst the Governors. The Governors are appointed from the membership of the Society, which is open to all who wish to support the work of the Society. Members pay an annual subscription to the Society.

The Hannah McDowall Scholarship
Ms Leah McNulty

Dorothy & David Mitchell Scholarship
Ms Annamma John
“To investigate the attitudes of nephrology nurses towards palliative care in ESKD in the Irish hospital setting”

Caroline Sharkey Scholarship
Ms Caroline Finn
“MSc by Research in Cardiac Rehabilitation”

Leah McNulty winner of the Hannah McDowall Scholarship 2012
The Adelaide Hospital Nurses’ League 2012

The Annual General Meeting of the League took place in Dublin on the 13th October in Fitzpatrick’s Castle Hotel, Killiney. The hotel staff made us very welcome and the event was very successful with some of our members staying over. There were a number of reunions held and we hope to have some details and photographs of same in our own newsletter which will be sent to our members later in the year. The AGM is a good opportunity for many to meet and renew old friendships as so many of us lead such busy lives. Thank you to the committee who organise this annual event.

At our AGM Ruvé Stewart resigned as treasurer and Nola Lambert took over this role. Thank you to Ruvé for the tremendous work she undertook over the last six years. Best wishes to Nola in her new position. Ros Garrett continues to act as secretary and many thanks to her too. The remaining committee members are: Hilary Daly, Hazel Caird, Audrey Champ, Liz Kinlan, Sharon Glyne, Ruvé Stewart, Heather Taylor and Yvonne Seville.

The London Branch Lunch was held once again in the Sloane Club on the 3rd May and some members from Ireland travelled over to attend it. Thank you to Lorraine Dixon, secretary of the London Branch who organises this event and always makes us most welcome.

In 2011, the committee agreed to award the Margaret Dornan Scholarship for a period of three years. This is awarded to a student nurse in their final year. The 2012 recipient of this bursary was Deirdre Mulligan and it is hoped to present her with her certificate at the AGM of the Adelaide Hospital Society in May 2013.

The Benevolent Fund continues to support and assist our members when needed and the committee, who undertake this work in the strictest confidence, are to be thanked for their continued good work in distributing this fund.

The Annual General Meeting for 2013 is to be held once again in Dublin in Fitzpatrick’s Castle Hotel, Killiney on Saturday 12th October and we look forward to seeing as many of our members as possible there.

Denise Pierpoint
President

The O’Morain Medal was established jointly by the Adelaide Hospital Society and the Meath Foundation in honour of Professor Colm O’Morain who throughout his career has been at the forefront of clinical research both nationally and internationally. The award is open to all Non Consultant Hospital Doctors working at Tallaght Hospital in the fields of Medicine and Surgery for clinical and translational research undertaken at Tallaght Hospital during the academic year. The first O’Morain Medal was awarded to Mr Barry McGuire who is shown being presented with his medal by Professor O’Morain in June 2012.
The Adelaide Hospital Society Health Policy Initiative.

The past year has proved a very fruitful one for the Adelaide Health Policy Initiative (APHI) established in 2009 in conjunction with the Department of Public Health & Primary Care, Trinity College, Dublin.

**Health Reform – Implementation of Universal Health Insurance**

In February 2012 the Government established a high-level Implementation Group on Universal Health Insurance to oversee the complex transition to universal health insurance. Dr. Fergus O’Ferrall was appointed by the Government to this key mechanism to ensure implementation of the Government programme. This represents recognition of the role played by the Adelaide Hospital Society in this historic process of reform and change. The role of the Group is an expert advisory one and is tasked with assisting the Department of Health in developing detailed implementation proposals for UHI and in driving the implementation of various element of the reform programme. The Implementation Group has provided advice in relation to the Department’s policy work on ‘Money Follows the Patient’, Hospital Groups and overall design of the UHI model.

**AHS Health Policy Advisory Board**

This consultative body composed of a wide range of health policy experts, health professionals and lay members meets twice a year for detailed consideration of key themes or issues. The AHS Health Policy Advisory Board represents the Society’s strong commitment to building partnerships to achieve better healthcare outcomes. Hence, we work with TASC, ESRI, Institute of Public Health, Jesuit Centre for Faith & Justice, Social Justice Ireland, The Wheel, Amnesty Ireland, and other key organisations.

**Roundtable – Winter and Spring Meetings**

The Adelaide Hospital Society, in conjunction with the Jesuit Centre for Faith and Justice, organised two Roundtable meetings with invited guests from key healthcare groupings spanning academic institutions, voluntary organisations, church institutions and clinical disciplines. The purpose of the Roundtable meetings are to bring together a wide range of stakeholders and interested organisations in the reform process to critically evaluate the Government’s progress on health reform.

For example at the recent Spring Roundtable we critically evaluated ‘Future Health: A Strategic Framework for the Reform of the Health Service 2012-2015’ and the ‘Path to Universal Healthcare – Preliminary Paper on Universal Health Insurance’. There were formal inputs from Dr Catherine Darker, Adelaide Assistant Professor in Health Services Research; Dr Steve Thomas, Assistant Professor in Health Policy and Management, Trinity College Dublin; and Dr Brendan O’Shea, Assistant Programme Director of the Trinity College Dublin, HSE, General Practice Training Scheme.

It is the AHPI ambition that the Roundtable meetings continue so as that future policy outputs can arise.
Research update

Dr Darker collaborated with Dr Steve Thomas on a book chapter entitled ‘Which is the right model of Universal Health Insurance for Ireland?’ that will be published shortly in a book entitled ‘Integrated Health Care in Ireland’. The chapter assesses the general theoretical and empirical features of UHI, cognisant of the experience of different countries. The chapter compares the two main options for UHI: the official policy outlined in the Programme for Government and that developed and championed by the Society. The two models were evaluated against key criteria related to technical merit and likely performance, feasibility for implementation in relation to changes required and the likelihood of support from key stakeholders.

Dr Darker undertook a major collaboration with the Royal College of Physicians of Ireland. The aim of this research is to survey hospital-based Consultants to identify what elements of the Chronic Care Model, which is the internationally recognised model for Chronic Disease Management, are currently in place. This will provide a baseline measure of Chronic Disease Management for benchmarking against ongoing transformation in the future. Data collection is now complete and a report is currently being compiled.

Dr Darker undertook to compile the international evidence for integrated care. The concept of integrated care is polymorphous in nature and lacks specificity and clarity, which significantly hampers systematic understanding, successful application and meaningful evaluation within any health system. This paper will explore the many definitions, concepts, logics and methods found in health care system and health service integration. In addition this paper explores the main elements or building blocks of integrated care and suggests a way to address its various complexities and unknowns in an applied Irish context. Dr Darker has completed an initial draft of the international evidence for integrated care.

Dr Darker, in conjunction with Prof Graham, piloted the utility of a clinical audit of the management of patients with established cardiovascular disease and patients at risk of cardiovascular disease attending Primary Care. This audit is an adapted version of SURF (Survey of Risk Factors), which was conceived as a simple audit of risk factor management within Secondary Care to provide more representative usage to complement detailed audits such as EuroAspire. The pilot is currently ongoing.

The AHPI three-year work plan, approved by the Board of Governors to 2015, is well underway. The considerable investment made by the Society is paying off in terms that will benefit every patient in the future. The Society and its members may take pride in the national impact being made by its contribution to health policy research, policy development and advocacy.

Dr Fergus O’Ferrall - A personal note from Dr Catherine Darker

Dr Fergus O’Ferrall will retire in June 2013. Dr. O’Ferrall has served as the Adelaide Assistant Professor in Health Policy since 2009. He has brought his wealth of experience, keen insight and passion for health equality to bear across many national and local forums.

Fergus has a very strong personal belief system, a belief that people have a right to healthcare and that right should not be hampered in anyway by an inability to pay for care. Fergus has been a colleague and a mentor to me since I joined the Society and the AHPI last year. He has been hugely generous of his time, both in helping me to settle into the Society and also to discuss policy issues. I will miss our conversations about healthcare reform and I will personally feel the loss of that easy routine contact. He has left the AHPI in a good shape, however and I, and the AHPI, will endeavour to carry on what he helped to start.
Officers of the Board

The following were elected as Officers of the Board:

Chairman:
Professor Ian Graham

Hon Treasurer:
Mr Peter Kemp

Hon Secretary:
Ms Triona Murphy

Patrons of The Adelaide Hospital Society

Annual Report 2012
Bequest to the Adelaide Hospital Society

Form of Bequest to the Adelaide Hospital Society of Personal Property

I bequeath to the Adelaide Hospital Society in Dublin, for its use, the sum of €...................... to be paid out of my personal estate; and I declare that the receipt of the Director of such Society shall be a full discharge of my Executor for said legacy.

Of Land and Houses:
(To be accurately described)

I devise and bequest to the Adelaide Hospital Society in Dublin, for its use, all my estate and interest in the land of ........................... in the County or City of, ......................... (or in all the houses and premises know as Nos. ........................... and the rents and profits thereof, with all rents due to me thereout at my death).

All charitable bequests are free of inheritance tax. No will is valid that is not executed in the presence of two witnesses, all signing in the presence of each other.

The Adelaide Hospital Society, Tallaght Hospital, Tallaght, Dublin 24.
Tel: (01) 414 2071  Fax: (01) 414 2070  Email: info@adelaide.ie

Donations to the Adelaide Hospital Society in lieu of flowers are gratefully accepted. During last year this was done and greatly appreciated. All donations received as a result have been individually acknowledged, but the Board wishes to record its grateful thanks both to the relatives and the donors in question.
Art in Tallaght Hospital

The National Centre for Arts and Health exists to improve patient care and to promote the benefits of the arts in health.

Situated in the hospital, the centre aims to improve the hospital experience for patients, to explore the therapeutic potential of the arts, to build positive links with the local community and to make the arts accessible to patients who cannot access traditional arts venues. The current arts programme includes exhibitions, live performances, creative writing classes, arts therapies, design projects and participatory art sessions on wards and in waiting rooms. The art programme is free for everyone attending the hospital and all art programmes are tailored to the needs of individual patients and clinical departments. Following is a snapshot of the projects which have taken place in 2012, more information about the Arts Programme can be found at this website:

The Adelaide Hospital Society, The Adelaide and Meath Hospital, Tallaght, Dublin 24.
